19. 6. 33.

Dear Mr Woodhouse.

Thanks for your appreciative letter. I am
really so very much trouble the telephone being a useful
instrument.

Mr & Mrs Gorey & Miss Gorey were in on
Friday evening to see the postcard - and seemed very
pleased.

Don't worry about getting me to effect the
insurance that's dead easy all I have to do is to phone
the packers! They will also advise gallery of the pictures
despatch and I will advise you. The Policy I should
imagine will be made out in favour of the C.O.L.T.C.
and sent to you. The question of payment does not
arise at the moment as the packers are folks I am
dealing with all the time and they simply put it on
my account. When everything is complete I can get
the items from them and send them on to you.

I shall be sorry to part with the portrait - but I expect I will say
good bye to it either this week or early next unless you want it
"rushed". Now will you tell me why W. Horley's calculating machine
is in dry dock! If I remember rightly he said he put in paraffin
and it wouldn't work until it was cleaned with petrol!!! However
you seem to have managed well without it. I also make the
insurance £1 = 6 = 0. unless (which I don't expect as the quotation
was per cent.) there is a reduction in taking a quantity

I note what you say about the mounted print
of the photograph and will remember not to charge it up
to the committee.

So that everything? I think it is but I am
tired and my brain is woolly. I hope to have time to put
some at least of these necessary operations in motion
tomorrow.

Yours Sincerely
Howard Gemerille
